

RECEIPT SOLUTIONS

Iconex™ Retail Paper Rolls

Improve efficiency, reduce cost and simplify supply chain

Iconex receipt solutions improve receipt printing so that you can expect a smooth process due to increased system uptime with fewer media related failures and service charges.

Iconex invented the cash register receipt more than 130 years ago and maintains FSC and ISO certified manufacturing locations around the world.

As the world's largest manufacturer of quality receipt solutions, you can be confident that we have the industry expertise to meet your demanding requirements and provide you with the receipt solutions you need, when and where you need them.

Our unique paper certification process ensures consistent paper quality and means increased system uptime due to fewer media related failures.

Iconex certified paper will reduce costly service calls and replacement of prematurely worn-out print heads, cutters and other components. Plus, our certified paper will also ensure consistent, high density printed images, legible printed characters and optimum bar code scanning.

Iconex converts BPA-free and phenol-free rolls and offers only California Proposition 65 complaint thermal paper.

When you purchase receipt paper from Iconex, you can rest assured that you are Prop 65 compliant. Iconex also offers thermal papers that are free of developers and leuco dye.

From simple to complex receipt applications, we have you covered. Our stock and custom color-printed receipt solutions are compatible with all major point of sale and credit card systems. We also offer a range of papers with varying archival life so you can simplify your supply chain and order from one source.

- Gas pump rolls

Features and Benefits

- Paper grades are subjected to rigorous qualification procedures to ensure superior quality
- Longer-length roll options reduce roll change frequency
- State-of-the-art production equipment manufactures precisely dimensioned, clean paper rolls that produce the minimum amount of paper dust or lint
- End-of-roll warning signals control paper waste
- Extensive range of roll widths, lengths and packaging variations available
- Industry's widest range of thermal receipt paper products, from low-cost general purpose grades to application specific specialty thermal papers
- Application specific thermal papers support bar code capability, high resolution graphics and image durability from 5 to 25 years
- Traditional bond papers and environmentally friendly alternatives, including BPA-free and phenol-free papers
- Four-color flexographic printing

Proof Points

Memory attention studies conducted by Pantone and the Pantone Institute, internationally recognized authorities on color, demonstrate the power of color and tell us that consumers are up to 78% more likely to remember a word or phrase printed in color than in black and white.*

- Color boosts redemption by 158%
- Color increases return visits by 62%
- Color increases immediate awareness of promotions by 165%
