

LABELING SOLUTIONS

Iconex[®] Linerless Library and Media Labels

Identify, organize, and streamline day-to-day processes with color coding specialty labels

Iconex MAXStick[®] linerless thermal labels are designed for use on the bindings of books and other media surfaces without any risk of adhesive residue damage.

Benefits

- Vibrant, eye-catching color options
- Side-edge adhesive design wraps around book bindings easily
- Damage free guarantee for all media types
- Labels are repositionable and leave no residue
- Continuous rolls enable variable length printing to fit largest of books
- No liner means less waste – great for your sustainability initiatives

Dewey decimal revolutionized

- Colors elevate and streamline numbering system organization.

Patron friendly

- Visual cues quickly and clearly identify category, genre, and age group.

Inventory decoded

- Color alerts and aids accurate selection, sorting, and shelving.

No risk to media

- Removes cleanly without damage to books, magazines, and periodicals.
